We have eCommerce solutions for all types of businesses. Our eCommerce platform will allow you to add products to your website on your own through an administator's interface, making it easy to edit item descriptions & prices, delete products, manage orders, email customers with miscellaneous information, collect product reviews, in addition to much more. We use the latest technologies from Zen-Cart , OS-Commerece , and Virtuemart ; which are industry leaders eCommerece software. The MD TECH TEAM staff is also expertly trained in each application.

VirtueMart offers a lot of Features, some of the standard Features are listed here. Please note that you have the ability to extend the Functionality of Joomla! and VirtueMart by using Plugins, Components, Templates & Modules to make them do what you need!
